

U Bal Raju

Hyderabad, Telangana | bb9573022@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Computer Science undergraduate specializing in AI & Data Science, with technical foundations across full-stack web engineering components. Practical skills include backend development with Python, data modeling with SQL, and responsive frontend implementation utilizing HTML, CSS, and JavaScript. Focused on core algorithmic problem solving, code debugging, and developing clean software architectures to support business requirements in an entry-level engineering position.

EDUCATION

St. Mary's Group of Institutions

2023 – Expected 2027

Bachelor of Technology (B.Tech) • Hyderabad, India

Major: Computer Science & Engineering (Artificial Intelligence & Data Science)

CGPA: 8.2 / 10

TECHNICAL SKILLS

Programming: Python
Web Technologies: HTML, CSS, JavaScript, Full-Stack Concepts
Database: SQLite, DBMS Concepts, SQL
Tools & Platforms: Git, GitHub, VS Code

TECHNICAL PROJECTS

Weather Forecast Application

HTML, CSS, JavaScript

- Created a dynamic web page using **JavaScript** to get and show live weather data from an external API.
- Designed a clean, responsive layout using **HTML** and **CSS** that works smoothly on both desktops and mobile screens.

Image Gallery Web Application

HTML, CSS, JavaScript

- Built a responsive web image gallery with a clean grid design, image click previews, and simple filter options.
- Improved website loading time and performance by organizing front-end code and assets carefully.

Simple Calculator

HTML, CSS, JavaScript

- Developed a basic online calculator to perform multi-step math calculations with real-time input checking.
- Created a simple, user-friendly visual design optimized for any computer or screen size.

ACHIEVEMENTS

- Secured **First Place in the Debugging Challenge** at the 2-Day Campus TechQuest (organized by ByteXL & St. Mary's Group), showing strong logical thinking and fast bug-fixing skills.

CERTIFICATIONS

- Programming Foundations with Python** – NxtWave March 2026
- RPA Foundations & Hands-on Workshop** – NxtWave February 2026
- Model Context Protocol Mega Workshop** – NxtWave August 2025

AREAS OF INTEREST

Full-Stack Software Engineering, Frontend & Backend Architecture, Object-Oriented Programming (OOPs), Artificial Intelligence (AI), Machine Learning (ML).
